4.Task and Resposibility divided into following way.

Task	Resposible	Start	End	Day	Status
Sprint 1	**Amit**	15-Jul	3-Aug	18	**Complete**
login_page	P.K	15-Jul	21-Jul	6	Comleted
Adm_page	A.k	22-Jul	28-Jul	6	Complete
DBMS	S.K	29-Jul	3-Aug	5	Complete
Sprint 2	**Ashutosh**	4-Aug	25-Aug	20	**In Process**
Bar_Graph	S.k	4-Aug	10-Aug	6	In Process
Data _manipulationA.k	A.k	10-Aug	17-Jan	8	Not Start
Payment	D.k	18-Aug	24-Aug	6	Not Start
Sprint 3	**NIkhil**	25-Aug	10-Sep	15	**Not Start**
Invoice	R.k	25-Aug	28-Aug		Not Start

Subscription_mang	28-Aug	2-Jan	Not Start
portfolio_mng_sys	2-Sep	3-Sep	Not Start

5. Product Backlog:

- Stock Portfolio page which shows all types of stocks.

- Customers page where customer can sell and buy stocks.

- seller page where company is selling their stock

- Security should be ensured.

- admin page to look for overall process.

- Integrity and data protection is a must.

- New user should be able to register

- Customer after purchasing all stock should be able to monitor it in one place.

- Home Page should show our products in middle.

- A search bar on top with our navigation system to land on different pages.

- An animation to attract customers for purchasing stocks.

- A portal time from 9 am and 6 pm will have lots of load so system should ensure that much of the load.

- If possible, adding international stocks will be good to go.

- Stock live updates need to be updated every 10s duration in customers profile page of which they had purchased the stock.

6. Scrum Backlog:-

Data research to collect raw data, filter data and gather technical information.

Designing and development related research to estimate market dynamics.

Market forecasting using different tools.

Development.

Testing and integration.
